PRICE REDUCED!

The Lagoon 40 is the model that has replaced the Lagoon 380 and it is the perfect size for a couple to sail or a family to enjoy cruising. Her self tacking jib and sport top helm make her a breeze to manage. The large cockpit and wide stern steps make it easy to move from a dinghy or a dock to the boat.

This owner version Lagoon 40 #67 is available in Annapolis. She is fully equipped with generator, A/C, full electronics, Solar panels, Square top mainsail, Code 0 rig and more. She has full warranty and trades will be considered. Call now to make arrangements to see her at Bert Jabins Yacht Yard in Annapolis.

Manufacturer Provided Description

A SLEEK AND INNOVATIVE DESIGN

With her new visual identity, the 40 immediately stands out. While faithful to the image of Lagoon's "DNA", a new style is born: an individual, streamlined and accomplished design depicts her large portholes and panoramic view. This creates a refined and high-performance unit, emphasised by the chamfer running from the bow to the stern. A new generation Lagoon, recognisable at first sight.

EXTERIOR: SPACE AND COMFORT

- A comfortable cockpit looking out to sea: a starboard dining table, able to accommodate up to twelve guests, a recreation area on the same side and seating at the rear beam.

- An ergonomic helm station accessible from the cockpit or deck, thus enabling communication between the skipper and crew at all times.

- Large aft transoms with a spacious swim platform, allowing simple access to the tender and safe, easy boarding.
- A forward cockpit, fitted with a sunbathing area, provides further living space.

NEW GENERATION RIGGING: PERFORMANCE AND SIMPLICITY

A symbol of the new generation Lagoons, the 40 is endowed with advanced performance features: a VPLP hull structure and an increased sail area provide a better sail surface area / displacement ratio. The decision to position the mast step further aft, which stems directly from VPLP's experience in competitive sailing, provides this catamaran with multiple advantages: A self-tacking jib for simplified manoeuvres.

- A large forward triangle for a wider choice of downwind sails: a guarantee of performance.
- A shorter boom for ease of manoeuvring.
- A main sail, with a high aspect ratio, enabling the capture of better airflow in the upper parts of the sail for optimised performance.
- The re-centring of weight, thanks to aft positioning of rigging, considerably reduces pitching.

Accommodations

One of the most open and bright salons in the Cat Market today! Featuring a rich walnut interior wood with grey/ beige floor, the Lagoon 40 is not only open and bright, she is also luxurious and rich.
