Ã?Â

GET TO KNOW HER

With sleek lines, a new stepped hull and aÃ?Â stylish deck plan, the Oceanis 51.1 is the first of a new generation. Easy to shorthand, comfortable and smart, she offers more thanÃ?Â seven hundred combinationsÃ?Â of customizations, ensuring there is an Oceanis 51.1 for every sailorÃ?Â's requirements.

NAVAL ARCHITECT: Berret Racoupeau Yacht Design

INTERIOR DESIGN: Nauta Design

Deck Design: Nauta Design

Ã?Â

EXTERIOR DESIGN

One-third of the Oceanis 51.1Ã?Â's hull is now stepped. In addition to the aesthetics of this flared shape, the new hull creates additional interior space, which in turn allows for exciting new layouts below. Her sleek, modern lines will turn heads in every harbor, while her deck and cockpit setup, replete with relaxation and lounging areas, offers a delightful blend of comfort and safety, both at sea and at anchor.

Ã?Â

INTERIOR DESIGN

Large portholes suffuse the elegant Nauta Design interior with light,

creating a wonderfully warm atmosphere below, and offering incomparable outside views whether you are sitting or standing. An elegant palette of woods and upholsteries guarantee a mirror effect with your tastes, and ensure your boat will always feel like home no matter where it is in the world.

~

RENEWAL OF THE CRUISING YACHT

The Oceanis 51.1 is spacious, elegant, cleverly designed, fast, and successfully revisits the cruising yacht.

SMART

The furling mast, self-tailing jib, and all the halyards and sheets on the standard model are all brought back to a single winch at each of the helm stations, making her simple and easy to sail. As for harbor maneuvering, Dock & Go technology simplifies everything.

THE HEIGHT OF COMFORT

The architectural choices that stand out on the Oceanis 51.1 are reflected in her habitability and an incredible amount of space. Inside, the owner's cabin has an en-suite shower room and toilet, and a 1.6 m wide island bed. A fully-fitted U-shaped galley has many convenient appliances. Truly a space to enjoy together, it is as pleasant to use under sail as it is at anchor.

FIRST LINE

Fitted with an extra-long carbon or aluminum mast, the Oceanis 51.1 First Line has up to 35% additional sail area in high-tech materials. The boat has a 2.8 m lead bulb keel in this high-performance configuration. This reduces weight and hydrodynamic drag. To complete this version, a composite steering wheel, top-of-the-range deck fittings, and boom sprit marry speed and cruising and promise exciting new sensations.
